AI

Everywhere. Powerful. And finally useful.

"AI has the potential to be more transformative than electricity or fire."

Sundar Pichai
CEO, Google

eye-share

March 2023 | April 2025

Our AI philosophy:

AI shall not replace human judgement, but enforce it.

XAI-approach ensure that each automation, recommendation or decision is **transparent**, **traceable** and **explainable** – both for accountants and auditors.

eye-share

Task

- Why did you do that?
- Why not something else?
- When do you succeed?
- When do you fail?
- When can I trust you?
- How do I correct an error?

Learned Function

Task

- I understand why
- I understand why not
- I know when you succeed
- I know when you fail
- I know when to trust you
- I know when you erred

Training Data → New Deep Learning Process → Explainable Model → Explainable Interface

eye-share

AI x Trust

Guiding principles

Human-in-the-loop

Always **include** a human in the process

AI that works **with** you

Transparency

AI explains **why** it wants to perform a certain action or recommendation

All reasons are **clear** and **understandable**

Understandable history

Actions are logged and **traceable**

Reversible, understandable and **documented**

eye-share

Why XAI in eye-share?

- Transparency

- Accountability

- Learning

- Control – Human-in-the-Loop

✨ Step is suggested with very high confidence ⬤

👤 Trine Osmundsen   ▾   5   Days ⓘ ⋮

Automatic approval flow ✕

The approval step is suggested with a very high confidence level of 100%

Here is why:

- This approval step has always been used as first step
- Only supplier from invoice header details is taken into account in this approval flow suggestion

EyeDa

Hi there!
Ask me anything about eye-share Workflow – I'll do my best to help.
If something seems off, you can always check the documentation I refer to in my replies.
And just a quick reminder: don't share personal or sensitive information.

You

How do I set up new approval rules?

EyeDa

To set up new approval rules in eye-share Workflow, you can follow these general steps:

1. Define the Criteria: Determine the specific conditions under which the approval rules should apply. This could include factors like invoice amounts, specific account codes, or department-specific requirements.

2. Configure Dimension Access: Set up rules to limit
